

Key messages for cholera prevention

- ☐ Drink safe water (treated and safely stored)
- ☐ Handwash with soap at key moments (after defecation or cleaning a child's bottom, before preparing or eating food or feeding a child) and also child's hands
- ☐ Cook food well, eat it hot, keep it covered, and peel fruits and vegetables.
- ☐ Use latrines or bury your feces (not open defecation)
- ☐ Clean up — in the kitchen and in places where your family bathes and washes clothes, & latrines.
