

# Songs

Prevention of bacterial, viral and parasitic organisms

\* We're new generation

To cooperate damage wastes

Because of pollution to body and health

Altogether women and men with help

\* We have to be industrious

Together throw the waste to the bin

Our families are healthy

Safety without disease

\* Altogether do the campaign

Develop our community

Every morning every evening do cleaning

Altogether altogether

## Washing hand

\* Hand hand hand                      our hands are useful  
Human was born                      with two hands  
These hands                      are not for test (again)  
These hands were                      born with you

\* We                      have to be attentive  
Industrious in cleaning                      wash the hands properly  
After toilet                      before eating  
It's not                      a joke

\* Children                      uncle aunt  
Altogether do cleaning                      our hands  
Is to avoid                      from disease (again)  
It will come                      to destroy body
