Global WASH advisors meeting
8 October 2019, Geneva

Roel Blesgraaf
rblesgraaf@redcross.nl

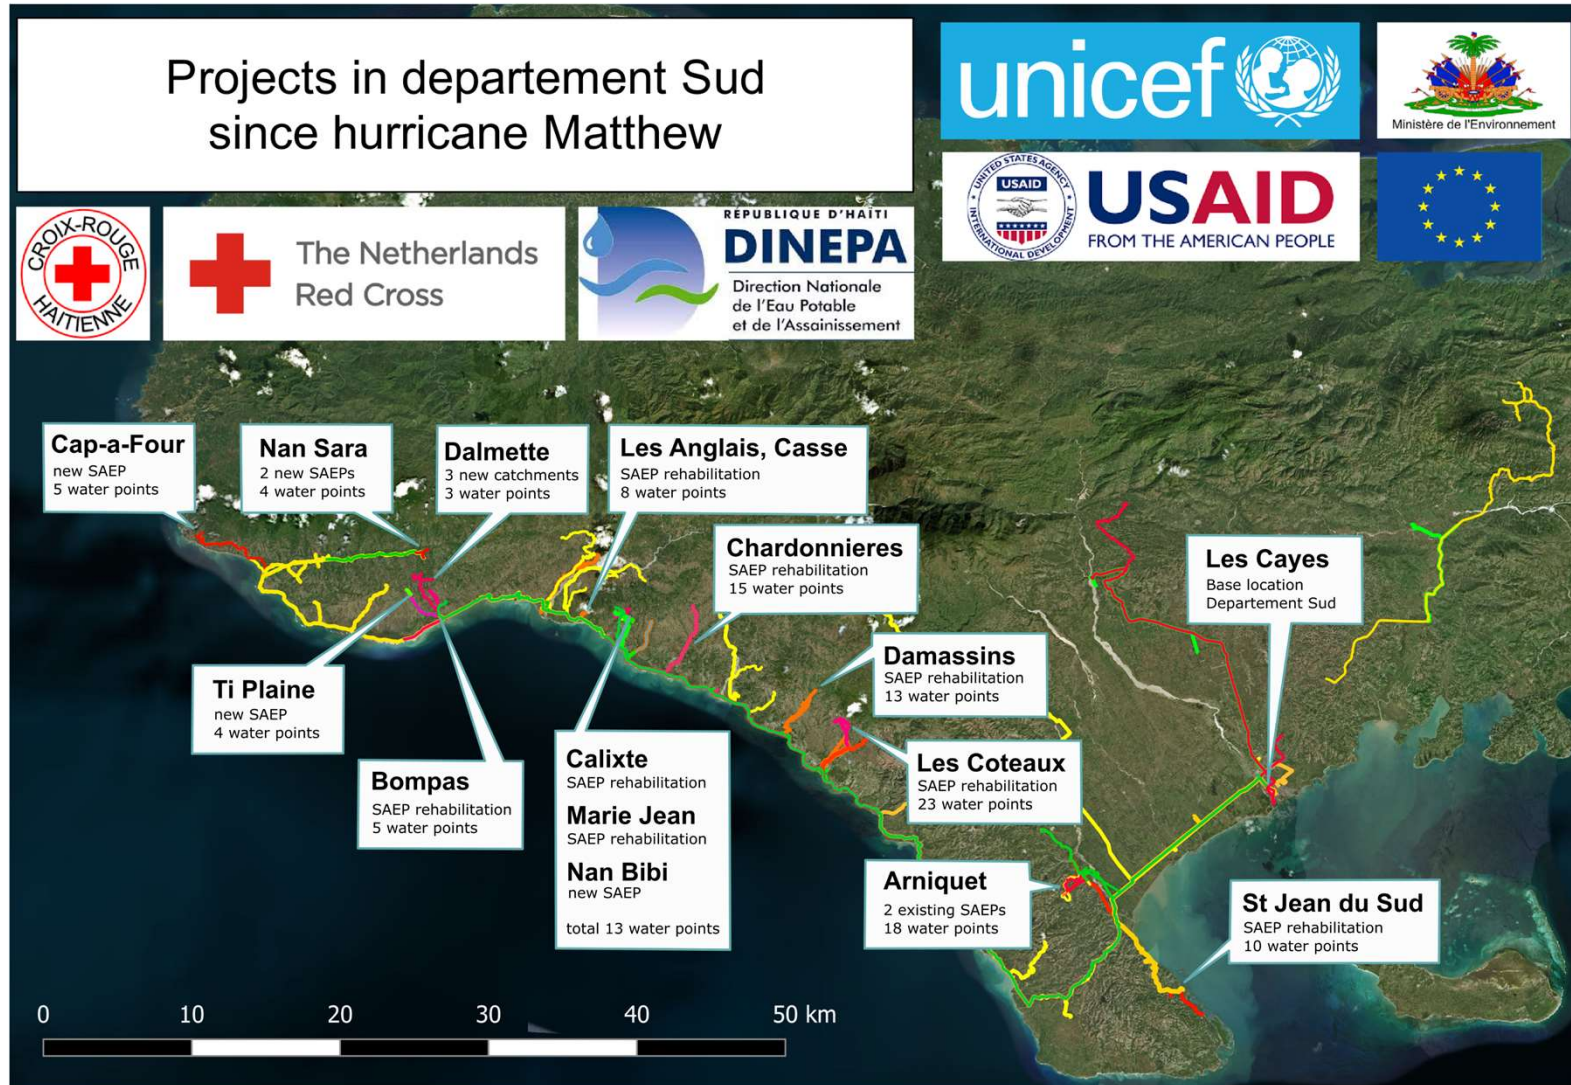

Contents

1. Ongoing programmes
2. Surge / deployments
3. New strategy 2030

Programmes: Haiti (just ended)

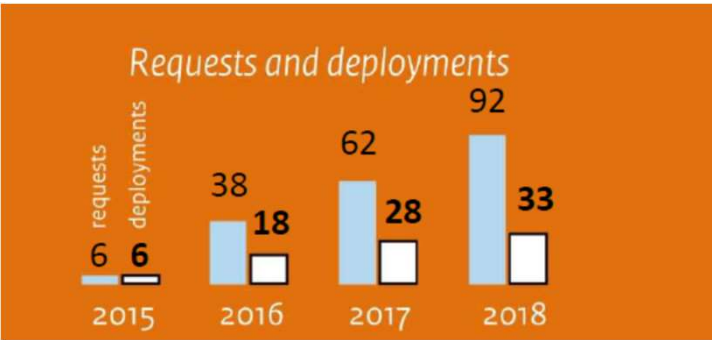

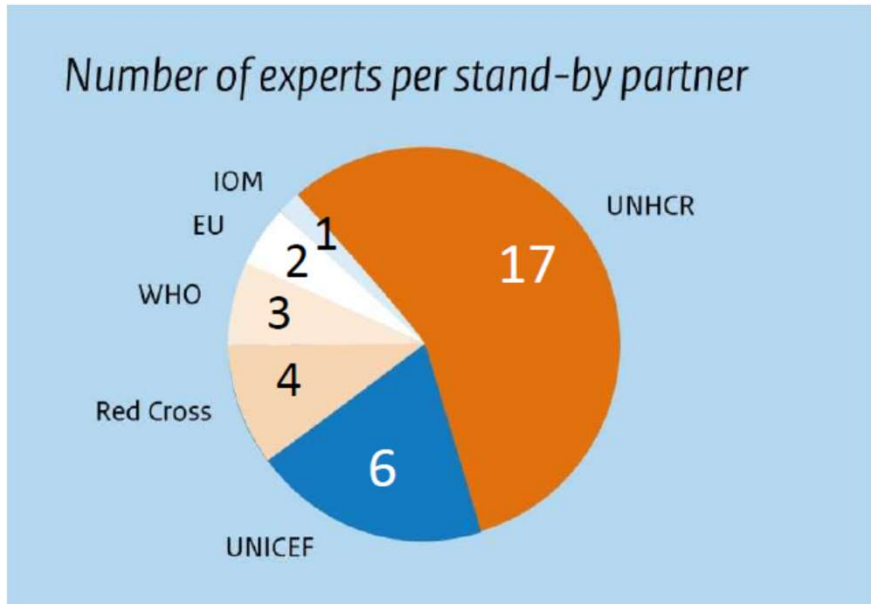

Programmes: ESP2 (just ended)

Ongoing programmes

- Current 'traditional' WASH programmes in Benin and Uganda
- Urban WASH Public-Private Partnerships in the Philippines (Cebu & Cagayan de Oro)
- WASH components in health programmes in Ethiopia, Ivory Coast, Mali, Sudan and Zambia
- Water / WASH components in climate adaptation / resilience programming in Haiti, Philippines and Sudan

Surge / deployments: DSS Water (2018)

Rode Kruis

New strategy: Changing context

New strategy: climate change is felt through water

New strategy: efficiency, impact & localisation

Redefine and build our sectoral expertise and competencies for service delivery and organisational development

New strategy: focus

- Go from 16 to approx. 10 partner countries
- Overall goal will remain resilient communities
- Key themes in new strategy 2030 will be data and WASH/water
- Besides programming provide support to movement partners: funding, expertise, network

→ How to align our strategies on WASH towards 2030, both in emergencies and developmental work?
